

Emerging Pakistan is an initiative of Government of Pakistan to highlight the major aspect of various nation - building activities. It is a proactive measure to launch an all-encompassing digital initiative that aims to highlight and promote the opportunities available in one of the most dynamic and robust nation with a youthful population. Pakistan is truly a natural bounty blessed with abundance of natural resources and food, vast human resources and has embraced modern technology, presenting an ideal situation where it can now build upon its resources in order to achieve advancement in all fields from agriculture to cutting edge science and technology. Through this initiative the Government seeks to interact with importers, investors, individuals, tourists and corporations who are interested in joining Pakistan's journey to prosperity.

We specially want to invite world's attention to the immense tourism opportunities available in Pakistan. From the mighty stretches of the Karakoram in the North to the vast alluvial delta of the Indus River in the South, Pakistan remains a land of amazing adventure and nature. Trekking, mountaineering, white water rafting, wild boar hunting, desert jeep safaris, camel and yak safaris, trout fishing and bird watching, are a few activities, which entice the adventure and nature lovers. Pakistan is endowed with a rich and varied flora and fauna. High Himalayas, Karakoram and the Hindukush ranges with their alpine meadows and permanent snow line, coniferous forests down the sub-mountain scrub, the vast Indus plain merging into the great desert, the coast line and wetlands, all offer a remarkably rich

variety of vegetation and associated wildlife including a fauna, both endemic and migratory. Ten of 18 mammalian orders are represented in Pakistan with species ranging from the world's smallest surviving mammals, the Mediterranean Pygmy Shrew, to the largest mammal ever known; the blue whale.
