Every woman is a composition of duality. She carries different sides within herself: strength and fragility, confidence and vulnerability, fluidity and severity, and more. Rather than existing in opposition, these different dimensions coexist, revealing a more authentic expression of who she is.

Rooted in the belief that opposites are not meant to exist apart, **NATALIA KIANTORO** presents a contemporary womenswear designer label that explores the beauty existing in duality. Every collection begins with a dialogue between opposing forces, translating them into a distinctive design language—expressive details in precision and purpose. Balancing artistry with function, each piece is designed to remain relevant and endure over time.

At its core, **NATALIA KIANTORO** is a celebration of modern femininity in all its dimensions. Creating contemporary womenswear that moves effortlessly with modern life, inviting women to feel empowered and embrace every side of themselves. Because she's never defined by an "or", but an "and".

Natalia Kiantoro is an Indonesian designer born in Surabaya. She developed a passion for design at a very young age. In 2009, Natalia moved to shanghai, where she completed her bachelor degree (B.A., graduated with an honor) in Fashion Design at Raffles Design Institute. Graduated in December 2011, Natalia was instantly involved in fashion industry as an assistant designer at Shanghai's bridal brands, Peony Rice, before moving back to Indonesia to start her own brand. She showed her very first collection at Shanghai Fashion Week Fall 2012, continued by Singapore Fashion Week, where she brought home 'People's Choice Award' title.

NATALIA KIANTORO TO LAUNCH A SPRING/SUMMER 2027 COLLECTION AT JAKARTA FASHION WEEK 2027 WITH DEWI LUXE MARKET

Jakarta, October 27th 2026 - NATALIA KIANTORO proudly presents a collection titled SYZYGY. A moment when the sun, earth, and moon align perfectly — holding their exact positions precisely. Through this lunar eclipse journey, we explore how opposing forces reveal one another. It's not about darkness versus light, but darkness because of light, and vice versa. Unveiling a beauty that doesn't belong to either one alone, but to the moment they coexist.

SYZYGY embodies the coexistence of duality by returning to the roots of our design language: androgynous silhouettes shaped by curved lines and structured forms, creating an expression where the feminine meets the masculine. Light and dark come together in the palette, while textured and smooth fabrics create another dialogue of contrast.

Together with Dewi Luxe Market and supported by WATT (Walk The Talk), Berenice, Plai Sports Club, and Project Soul Eyewear, the collection reminds us that true beauty emerges when we embrace contradictions, allowing balance and harmony to exist within contrasts.

NATALIA KIANTORO MELUNCURKAN SPRING/SUMMER 2027 COLLECTION DI JAKARTA FASHION WEEK 2027 DENGAN DEWI LUXE MARKET

Jakarta, 27 Oktober 2026 - NATALIA KIANTORO dengan bangga mempersembahkan sebuah koleksi berjudul SYZYGY. Sebuah momen ketika matahari, bumi, dan bulan berada dalam satu garis sejajar. Melalui fenomena gerhana bulan ini, kami mengeksplorasi bagaimana kekuatan yang berlawanan justru dapat saling mengungkapkan keberadaan satu sama lain. Bukan tentang kegelapan melawan cahaya, melainkan tentang kegelapan yang hadir karena cahaya, dan begitu pula sebaliknya. Sebuah keindahan yang lahir dari momen ketika keduanya hadir dan hidup berdampingan.

SYZYGY merepresentasikan konsep dualitas yang menjadi bahasa desain kami. Koleksi ini menghadirkan siluet androgini yang dibentuk melalui garis-garis lengkung dan struktur yang tegas, menciptakan sebuah ekspresi ketika feminin bertemu dengan maskulin. Dialog kontras lainnya hadir melalui perpaduan warna terang dan gelap, serta permainan tekstur dalam pemilihan material.

Bersama dengan Dewi Luxe Market dan didukung oleh WATT (Walk The Talk), Berenice, Plai Sports Club dan Project Soul Eyewear, koleksi ini mengajak kita untuk merangkul perbedaan dan melihat bagaimana keindahan dapat tumbuh ketika berbagai elemen yang kontras hadir berdampingan dalam keseimbangan dan harmoni.
