The Rizkianto Presents *Second Sight*, A 16-Look Collection Rooted in Socratic Inquiry

The House Returns to Jakarta Fashion Week with Its First Collection for Men and Women

Jakarta, October 8, 2026 — The Rizkianto returns to Jakarta Fashion Week on October 31, 2026, presenting *Second Sight*, its newest collection and the first to dress both men and women on the same runway, marking a significant evolution in the house's creative identity and direction.

The Collection

Second Sight, comprising 12 women's looks and 4 men's looks, is The Rizkianto's most expansive collection to date. The Spring/Summer 2027 collection is philosophically underpinned by Socrates' call to "know thyself" and Nietzsche's assertion that authenticity is attained through self-awareness. The clarity that comes from personal focus and self-reflection is the collection's central theme, anchored by a single question: what does it feel like to be fully present in your own life, aware of who you are and unafraid of what that means? The 16 looks are Rizkianto's answer.

Second Sight marks a deliberate departure from the monochromatic design that has defined the house's earliest work, while the silhouettes retain the precision and European tailoring that have become The Rizkianto's signature. The result is a collection that feels both entirely new and yet entirely The Rizkianto.

In addition, *The Rizkianto* is honored to have *Epajewe*l by Eliana Putri Antonio, *Peau*, and *Axel Shoe Co.* as our accessories partners.

Second Sight will be presented at Jakarta Fashion Week on October 31, 2026.
