FOR IMMEDIATE RELEASE

CHRISTIN WU BRINGS IN SPRING SUMMER 2027 COLLECTION: REMINISCIA

REMINISCIA — A Decade Reimagined

Ten years hold more than time.
They hold memories, ideas, discoveries, and moments that shape who we become.

For our tenth anniversary, we return to our own archive—to the silhouettes, details, and signatures that have shaped Christin Wu throughout the years. Reminiscia is a reflection on a decade of creation, seen through a new perspective. Rather than simply recreating the past, we revisit it, refine it, and reimagine it. Familiar silhouettes are reconstructed with new proportions and new materials; details are rediscovered and given another expression. Each piece carries a trace of where it began, while becoming something entirely its own.

The feminine language that has always been at the heart of Christin Wu returns with renewed expression. Florals bloom boldly across the collection. Pearls weave through the designs as a symbol of continuity and enduring beauty. Ribbons introduce softness and movement.

For the first time, this world extends beyond footwear.
Shoes meet apparel to form complete looks—a fuller expression of the Christin Wu woman and the world she inhabits. Each element is designed to complement the other, bringing together the craftsmanship, femininity, and spirit that have defined the brand for a decade.

A silhouette remembered.
A detail rediscovered.
A material reimagined.
A familiar idea, seen anew.

Reminiscia is a celebration of everything that has brought us here—not as something to preserve in the past, but as a foundation for what comes next.
Because looking back allows us to see how far we have come.
And remembering gives us the freedom to imagine what comes next.

Ten years of memories.
Ten years of becoming.
A new chapter unfolds.
