PRESS RELEASE

RÊVES STUDIO PROUDLY PRESENTS SPRING/SUMMER 19 COLLECTION AT JFW 2019:

Rêves Studio is a womenswear ready-to-wear based in Indonesia that was established in 2016. The brand aims to create ideal clothing women that are true to their core: Classic, Sophisticated and Knowledgeable. They achieve this by finding the balance between detail and simplicity in each garment that will invoke self-esteem and confidence when women wear their outfit.

The brand supports women empowerment by introducing their own term of Power Dressing. It is achieved by using asymmetrical design, details and cut out to construct a strong representation of modern femininity. Rêves Studio aims to provide easy transition outfits from morning to after-hours.

This year Rêves Studio is proud to be a part of the sixth generation of Indonesian Fashion Forward, and is very fortunate to have the opportunity to showcase their latest collection at Jakarta Fashion Week 2019 on October 21st, 2018.

Luminance is Reves Studio's Spring/Summer 2019 collection that encapsulates ethereal beauty. Inspired by the colors of the evening cotton candy sky, SS19 exudes out of this realm elegance. With the combination of subtle colors; blush, white, lilac and yellow, this collection is in touch with it's feminine side. This year Rêves Studio is collaborating with **WATT-Walk The Talk** for footwear.

Rêves Studio's Spring/Summer 2019 Collection – will be available early december on their website at www.revesstudio.com, Galleries Lafayette Pacific Place and Central Grand Indonesia.
