HIYOJI ID**

VERSED

Danjyo Hiyoji is launching our first premium line; Danjyo Hiyoji ID. Danjyo Hiyoji ID caters them who appreciate details and meticulous craft. Through this premium line, we will be collaborating with Indonesian local artists and bringing each talents into light to both the nation and global eyes.

This season, Danjyo Hiyoji ID is highlighting the fad of the prep school boys through Versed.

Danjyo Hiyoji blurs the line between the precision of etiquette of the preps with street mannerism. Mixing the best of both worlds, Versed is a very dynamic yet preppy collection. It highlights a mixture of fitted tailoring and oversized silhouettes. Vibrant plaids and street art illustration. Primary colors and a blazing orange.

Danjyo Hiyoji, working with a local visual artist — Muklay — also bring different textures using embroideries, hand-painting and hand-embroideries. Treatments are scrupulously placed on each garments, tying them together into a whole new and fresh collection. In this collection, Danjyo Hiyoji thrives for both national and international quality.

Versed is bringing old school to a new sphere.
