

AJE

About the collection

AJE Fall/Winter 2020 titled as Impermanence, inspired by the Japanese wabi-sabi philosophy, to find beauty in the imperfections, where the old is welcomed as new. The collection is found at the intersection of femininity and elegance, with details such as asymmetric drapery, voluminous sleeves, cut-outs on evening dresses.

Handmade hardware in resin, metal, and wood are made handmade as ornaments into their sustainably-sourced collection. Bold patterns and color-blocking are found as AJE fresh takes on transitional dresses.
